

## Standard Level Features

---

Hardened 16 gauge stainless steel end-cap and binding.

For nearly 60 years, our family has been hand crafting quality levels for the building trades using only top quality materials.

Hardened 16 gauge stainless steel binding.

A name you can trust.

Three piece tongue and groove construction, sealed with 2 hand rubbed coats of raw linseed oil, ready for use.

Pyrex Glass Vials with baked on lines. Guaranteed to .015" in the length of the level.

Specially designed nails secure the binding every 2". Guaranteed not to come off.

Tough 1/8th" glass, sealed with silicone and secured with a one piece retainer ring. Easily removable for repairs.

1 piece retainer rings secure glass.
